

This file is a supplement to the 2019 edition of World Radio TV Handbook. It summarises the changes to the international schedules printed in the book resulting from the implementation of the 2019 “A” season schedules.

Contact details and other information about the stations shown in this file can be found in the International Radio section of WRTH 2019.

If you haven't yet got your copy, the book can be ordered from your nearest bookstore or directly from our website at [www.wrth.com/\\_shop](http://www.wrth.com/_shop)

# WRTH INTERNATIONAL RADIO SCHEDULES - MAY 2019

## Notes for the International Radio section

Country abbreviation codes are shown after the country name. The three-letter codes after each frequency are transmitter site codes. These, and the Area/Country codes in the Area column, can be decoded by referring to the tables in the at the end of the file.

Where a frequency has an asterisk (\*) etc. after it, see the 'KEY' section at the end of the schedule entry.

The following symbols are used throughout this section:

- † = Irregular transmissions/broadcasts;
- ‡ = Inactive at editorial deadline;
- ± = variable frequency;
- + = DRM (Digital Radio Mondiale) transmission.

Stations that have become active since WRTH was published are shown in **GREEN**.  
Changes since the previous file release are marked in **BLUE**.

## END OF INTERNATIONAL RADIO SCHEDULES

# WRTH C&OTB RADIO SCHEDULES - May 2019

## CLANDESTINE AND OTHER TARGET BROADCASTS

**Clandestine Broadcasts** (Clan) are politically-motivated broadcasts produced by groups opposed to the government of the target country.

**Other Target Broadcasts** can be produced by either governmental or non-governmental organisations, and are targeted at zones of regional or local conflict. Most COTBs are transmitted via the facilities of international transmitter operators.

The following symbols are used in this section: † Irregular transmission; ‡ Inactive at time of publication; ± Variable frequency. Where a station is no longer broadcasting on MW or SW, the inactive symbol (‡) appears next to the station name (however, the station may be continuing to broadcast via satellite, internet, FM or DAB).

Stations that became active after WRTH, or the online Winter update (Feb), were published are marked in **GREEN**. Changes made since the previous release of this file are shown in **BLUE**.

# WRTH TRANSMITTER SITES

## Location and Decode Tables

### INTERNATIONAL TRANSMITTER SITES

The transmitter sites shown below were used for International broadcasting during the 'A' / Summer season.

Transmitter sites that do not appear in the broadcaster schedules for this this season have been removed from this list.

Where a '✓' is shown in the '**MW**' column, this indicates the site has Mediumwave (0.5-1.7MHz) &/or Longwave (0.15-0.3MHz) transmitters installed.

If there is a '✓' in the '**SW**' column, the site has Shortwave (2.3-26MHz) capability.

If either column has an '✗', that site does not have transmitters installed that cover the range indicated.
