

**WORLD RADIO TV HANDBOOK**

# **WRTH**

**THE DIRECTORY OF GLOBAL BROADCASTING**

**2020**

**The World's Most  
Comprehensive and  
Up-to-Date Guide  
to Broadcasting**

This file is a supplement to the 2020 edition of World Radio TV Handbook. It summarises the changes to the international schedules printed in the book resulting from the implementation of the 2020 "A" season schedules.

Contact details and other information about the stations shown in this file can be found in the International Radio section of WRTH 2020.

If you haven't yet got your copy, the book can be ordered from your nearest bookstore or directly from our website at [www.wrth.com/ shop](http://www.wrth.com/shop)

# WRTH INTERNATIONAL RADIO SCHEDULES - MAY 2020

## Notes for the International Radio section

Country abbreviation codes are shown after the country name. The three-letter codes after each frequency are transmitter site codes. These, and the Area/Country codes in the Area column, can be decoded by referring to the tables in the at the end of the file.

Where a frequency has an asterisk (\*) etc. after it, see the 'KEY' section at the end of the schedule entry.

The following symbols are used throughout this section:

- † = Irregular transmissions/broadcasts;
- ‡ = Inactive at editorial deadline;
- ± = variable frequency;
- + = DRM (Digital Radio Mondiale) transmission.

Stations that have become active since WRTH was published are shown in **GREEN**.

### AFGHANISTAN (AFG)

#### RADIO TELEVISION AFGHANISTAN (RTA) (Gov)

kHz: 6100

##### Summer Schedule 2020

English	Days	Area	kHz
1530-1600	daily	SAs	6100kabt
Urdu	Days	Area	kHz
1600-1630	daily	SAs	6100kabt

Key: † Irregular.

### ALASKA (ALS)

#### KNLS INTERNATIONAL (Rig)

kHz: 7355, 7395, 9580, 9685, 9695, 9730, 9735, 9740, 9760, 9795, 11875

##### Summer Schedule 2020

Chinese	Days	Area	kHz
0800-1000	daily	EAs	11875nls
1000-1100	daily	EAs	9685nls
1100-1200	daily	EAs	9735nls
1300-1400	daily	EAs	7395nls, 9740nls
1400-1500	daily	EAs	7355nls

## END OF INTERNATIONAL

## RADIO SCHEDULES

## CLANDESTINE AND OTHER TARGET BROADCASTS

**Clandestine Broadcasts (Clan)** are politically-motivated broadcasts produced by groups opposed to the government of the target country.

**Other Target Broadcasts** can be produced by either governmental or non-governmental organisations, and are targeted at zones of local or regional conflict. Most OTBs are transmitted via the facilities of international transmitter operators.

Country abbreviation codes are shown after the country name. The three-letter codes after each frequency are transmitter site codes. These, and the Area/Country codes in the Area column, can be decoded by referring to the tables in the at the end of the file. Where a frequency has an asterisk (\*) etc. after it, see the 'KEY' section at the end of the schedule entry

The following symbols are used throughout this section:

- † = Irregular transmissions/broadcasts;
- ‡ = Inactive at editorial deadline;
- ± = variable frequency;
- + = DRM (Digital Radio Mondiale) transmission.

### Target: AZERBAIJAN (AZE)

**VOICE OF FREE TALYSHISTAN**

kHz: 1395

Arabic	Days	Area	kHz
1400-0300	daily	YEM	1170dha*

Key: \* Times variable.

## END OF C&OTB

## RADIO SCHEDULES

## Religious Broadcasters Cross Reference Table

To locate the schedule for a particular religious broadcaster, find the name in the left hand column (which is in alphabetical order). Next, look in the **'Has own Schedule'** column, if the station has a '✓' in that column, the schedule will be found under the country shown in the **'B'caster Country'** column. If a station has an 'x' in the **'Has own Schedule'** column, this indicates that the station in question is either a relay or an Admin HQ. Should this be the case, you will need to consult the **'Schedule Location'** and **'Schedule Country'** columns. This will tell you under which name and country the schedule is listed. Lastly, the **'Section'** column will show either 'International' or 'C&OTB', dependent on the section the schedule is listed under.

# DRM International Broadcasts

**DRM = Digital Radio Mondiale.**

**Note:** not all broadcasts are daily, and schedules are subject to change.

Test transmissions from various broadcasters may be heard on occasion.

For country and site codes, see relevant tables at the end of this file. The column 'N' indicates **Notes**. Symbols used in the 'N' column are: '+', indicating DRM transmissions; '±' which indicates variable frequency, '†' shows irregular transmissions and '‡' is for frequencies that were inactive at time of publication.

**END OF DRM INTERNATIONAL BROADCASTS**

# WRTH TRANSMITTER SITES

## Location and Decode Tables

### INTERNATIONAL TRANSMITTER SITES

The transmitter sites shown below are being used for International broadcasting during the 'A' season.

Transmitter sites that do not appear in the broadcaster schedules for this this season have been removed from this list.

Where a '✓' is shown in the '**MW**' column, this indicates the site has Mediumwave (0.5-1.7MHz) &/or Longwave (0.15-0.3MHz) transmitters installed.

If there is a '✓' in the '**SW**' column, the site has Shortwave (2.3-26MHz) capability.

If either column has an '✗', that site does not have transmitters installed that cover the range indicated.
